

# NGUYEN LE PHONG

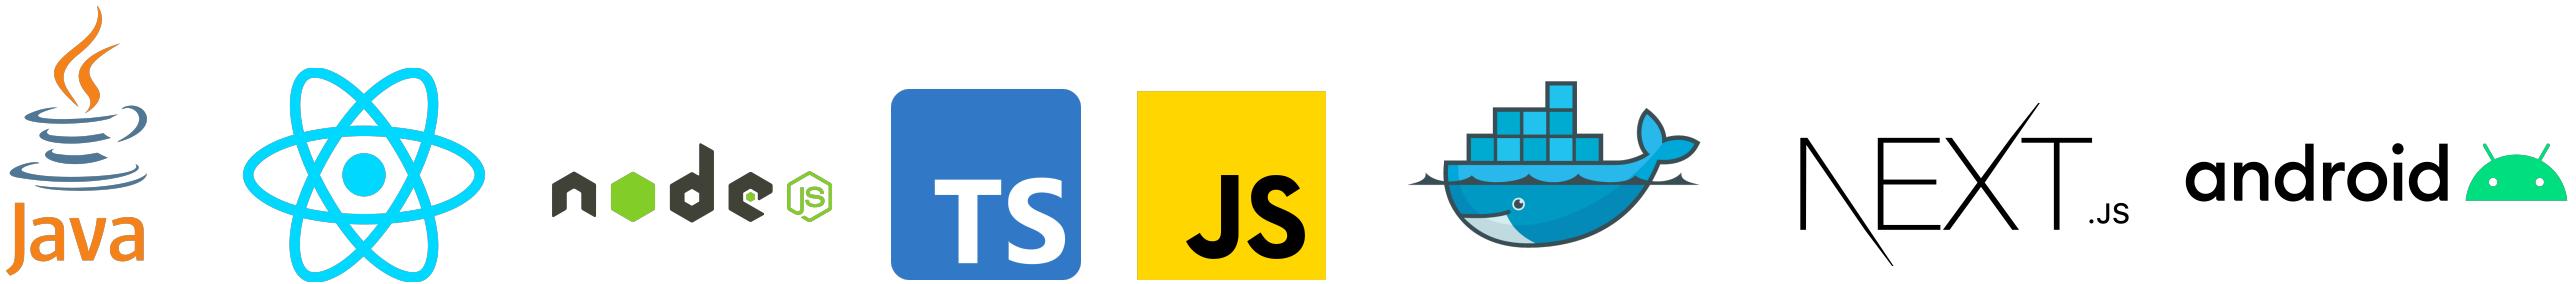

## CURRICULUM VITAE

### ABOUT ME

A passionate individual who always thrives to work on end-to-end products which develop sustainable and scalable social and technical systems to create impact.

I have worked with two product startups and one longtime outsourcing company. So I have a lot of experience in Frontend Development profession. Besides, I am also considered as a project mercenary of the outsourcing company. I have grown from such diverse projects. It also gives me confidence as a freelancer to receive projects from partners in my network of contacts. And I'm getting more and more experienced.

### WORK EXPERIENCE

#### Fullstack Software Engineer - Prime Data VN

July 2020 - Present

I have the opportunity to access the new domain CDP, the Marketing platform.

I have built a project base for most of the projects I have been involved in since the company was not established until 2022

I have managed a good team with team size of 4 members.

#### Java Developer - Splus Software

Mar 2019 - July 2020

This is an opportunity for me to interact with an outsourcing environment, it is a great opportunity for me to advance to the position of Full stack software engineer.

I have successfully completed most of the projects I participate in, including websites, mobile apps, internal tools, working for both Japanese and American partners.

And especially I was assigned by the company onsite tasks for Mobivi company and Synova company.

Through this environment I have knowledge of software production processes, effective time management, and my English began to improve from there.

#### Mobile App Developer - Mona Media

Mar 2020 - July 2020

Take on the responsibility of building UI/UX, integrating APIs to complete mobile applications to serve older uncles to manage hostels. I finished the first version in 3 months.

#### Frontend Developer - Proptech Plus

May 2018 - Jan 2019

It was the beginning of my career path, in a small real estate product startup, I quickly learned ReactJS to get the Frontend Development position in my career.

### ACHIEVEMENTS

#### The degree of engineer

2020

The degree of engineer information technology  
Degree classification is very good

#### Best Rookie Of The Year

2019

With my best efforts in 2019, I was honored to receive the title of the best new employee in Splus-Software company.

#### Tester Certificate

2019

In the Software Testing of GST course in 2019 I was awarded a type-A certificate by GST and invited to join their project without having to graduate from university.

### EDUCATION

#### Teaching

09/2022 - 11/2022

Take on the responsibility of teaching a "Frontend Project" course for the Vietnam Australia center. This project includes the implementation process from requirements analysis, diagram/UI/UX design, and project building using ReactJS & NextJS. Then perform test, package, deployment, document, and complete the project report.

#### Information Technology

2015 - 2019

I graduated from university with a good degree. Subjects such as Network Programming, Web Programming, DBMS, Data warehouse, System Design Analysis, Object-oriented design, etc. have helped me a lot in my career path to the present.

#### Software Testing - GST

2019

I had the opportunity to participate in the software quality assurance training course from an actual project of FPT's GST company. With my best efforts, I have achieved Class A certification.

I gained experience in test planning skills, writing test cases, writing test reports, and advanced software testing techniques.
